Measurements Are Measured: Width X Height X Thickness  
\*All prices are FOB Johnstown, PA

**Heavy Duty | Variety of Colors**  
**Shipping Savings | Webbing Straps**  
**Side Release Buckles**

All pads are manufactured with 18.5 oz. Vinyl that is UV resistant and has a -30 degree cold crack. All tower pads are manufactured using 90ILD foam.

All Large Lift Tower Pads are made with a 4" center section of foam to give maximum protection in the middle of the pole. These pads also come with 2" of foam on the side for easier handling and ease of wrapping around the pole.

## UNIVERSAL EQUIPMENT PADS

Multi-purpose pads are designed to fit around hydrants and other snow making equipment and still allow for easy access. These are not your typical hydrant pads! Covers are designed using 18.5 oz. vinyl that is UV resistant and has a -30 degree cold crack. The pad also includes a total of 38 heavy duty grommets to distribute around all four side to allow for easy anchoring from different points.

**Standard Size: 52" x 72" x 2"\***

Any size pad available

\*foam measures 48" X 70" X 2" - product is manufactured with a vinyl edge that holds the grommets. All prices are FOB Johnstown, PA

## STANDARD HYDRANT PADS

Covers are designed using 18.5 oz. vinyl that is UV resistant and has a -30 degree cold crack. The pad also includes a total of 38 heavy duty grommets to distributed around all four side to allow for easy anchoring from different points.

**58" & 72" high Hydrant Pads\***
