Ultra Zone Pressure Point Reduction

Ultra Zone Pressure Point Reduction

(Comfort, Premium Performance and Durability)

- For the most sensitive patients
- Comfort paired with the highest density foams
- Channel cut zones combined with layered zones
- 4 way stretch coated nylon fabric with concealed zipper design
- Latex free
- Sloped memory foam heal section for added comfort and to increase circulation and reduce pressure
- Extreme edge support correct position

The Ultra Zone Pressure Point Reduction Mattress is designed to meet the needs and requirements of some of today's most sensitive patients. Offering multiple zones in both the channel cut top and layered from below. These layers are designed to provide comfort to patients with decreased mobility and skin breakdown potential. This mattress also features our 4 way stretch coated nylon cover that helps reduce sheer and is fluid resistant, anti-bacterial, anti-microbial and has a low moisture vapor transfer. The cover's concealed zipper design also helps prevent fluids from entering the mattress's core. Additional design features include; a sloped memory foam heal section for maximum protection and our Extreme Edge support system to help keep the patient positioned correctly on the mattress.
