

Residence Preferred COMFORT ECONOMY

- Features Indura Performance fiber™ comfort layers which deliver long-lasting comfort and support, and provides a more restful, healthy sleep. It also contains no flame-retardant chemicals—it doesn't burn nor leach toxic chemicals or vapors. Of course, IPF meets all federal and industry safety standards
- Inverted seam style mattresses to help reduce the risk of bed bug infestation
- Tamper resistant lock stitch closure
- Full perimeter spring unit – NO foam encasement – get 100% surface support and sleep area not offered by foam encased mattresses. Spring Unit features 18% more coils than industry standard and a heavy duty dual boarder rod system which is much stronger and durable than foam borders.
- 210 denier navy nylon cover which is fluid proof, bacterial / fungal resistant, non-allergenic, stain / tear resistant, and mold and mildew resistant.
